

PUBLIC NOTICE

Collins & Aikman has applied to the Tennessee Air Pollution Control Division (TAPCD) for a federally enforceable state operating permit that allows them to opt out of being subject to the provisions of paragraph 1200-3-9-.02(11) of the Tennessee Air Pollution Control Regulations (also frequently referred to as Title V regulations). Collins & Aikman will be bound by a permit that limits their potential to emit for volatile organic compounds and hazardous air pollutants such that they are below major source applicability thresholds. Collins & Aikman has also agreed to use record keeping methods to prove that they are abiding by more restrictive emission limits.

The applicant is Collins & Aikman with a site address of 2110 Charles Redfern Drive, Athens, TN 37303. They seek to obtain a federally enforceable state operating permit for an automotive parts manufacturing operation. However, it should be noted that this facility has a current major source (Title V) operating permit.

The TAPCD has made the determination that this facility can be approved to opt out of being subject to Title V regulations if certain conditions are met.
